

## Press Release

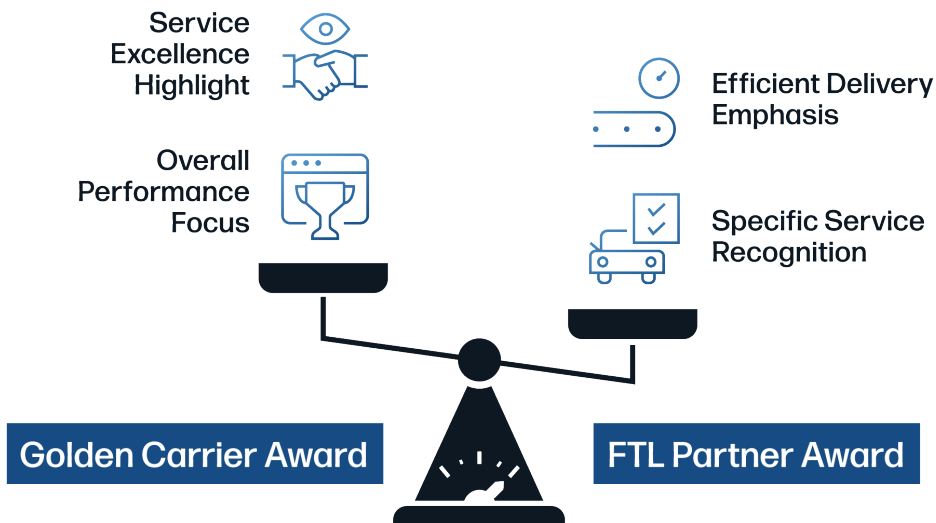

# Automated Logistics Systems Named Forvia's Golden Carrier and FTL Partner of the Year

Jackson, MI - April 30, 2025 – Automated Logistics Systems (ALS), a leading provider of third-party logistics and freight brokerage services, is proud to announce it has been honored with two prestigious awards at Forvia's Carrier Day:

- Overall Golden Carrier of the Year
- Full Truckload (FTL) Partner of the Year

These honors reflect ALS's steadfast dedication to service excellence, operational dependability, and strong, collaborative partnerships. What makes this recognition especially meaningful to ALS is that the awards were earned through direct votes from Forvia's frontline operational staff, the individuals who interact with our team daily and experience the quality of our service firsthand.

"We are deeply honored to be recognized by Forvia, especially with these two top-tier awards," said Matt Eckler, Chief Operating Officer at ALS. "To know that this came from the team members on the ground, the ones relying on us daily, makes this recognition incredibly meaningful. It's a true reflection of our team's work ethic and the high standards we hold ourselves to."

### ALS's Dual Awards Reflect Excellence and Efficiency

ALS and Forvia have shared a 15+ year partnership, marked by mutual trust, service innovation, and a shared commitment to continuous improvement in the automotive logistics space.

The Golden Carrier of the Year award represents Forvia's highest distinction for overall performance and execution, while the FTL Partner of the Year award recognizes ALS's strength in delivering efficient, reliable full truckload services across North America.

"This recognition is a testament to the people behind the scenes at ALS – from our carrier relations and operations teams to our account managers and drivers," said Joe Parker, President of ALS. "We're proud of our longstanding relationship with Forvia and look forward to what we can accomplish together in the next 15 years."

ALS attributes this recognition to its strong company-wide culture rooted in customer-centric solutions, data-driven execution, and operational integrity.

As ALS continues to grow its footprint across North America, it remains focused on building resilient supply chains and trusted relationships with manufacturers, retailers, and distributors across the continent.
